Concord Mediation Center

Concord Mediation Center's staff and affiliated mediators specialize in alternative and innovative methods to manage personal or professional conflicts. A straight-forward approach facilitated by trained professionals identifies underlying perspectives which are discussed and then used as a basis for building solutions agreeable to all involved.

Concord Mediation Center is the approved center of the Nebraska Supreme Court's Office of Dispute Resolution for Douglas and Sarpy Counties. Since 1999, Concord Mediation Center has provided exceptional service in mediation, facilitation and conflict resolution training.

We promote constructive dialogue and conflict resolution through the processes of facilitation, mediation and training. We provide an interest-based process that values the individual. This process honors each person's capacity to express themselves, to listen, to learn and to work together. We serve families, individuals, businesses, schools and community groups.
